#### **SUMMARY SLIDE DECK**

# MINERAL RECYCLING FORUM 2018

Radisson Blu Hotel, Cologne, 15-16 March 2018

## IMF®RMED welcomes you to Cologne and to Mineral Recycling Forum 2018

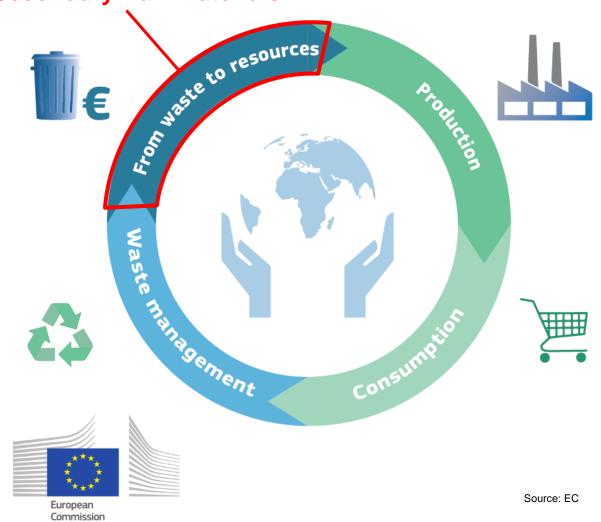

## Why "Mineral Recycling"? What are "Secondary Raw Materials"?

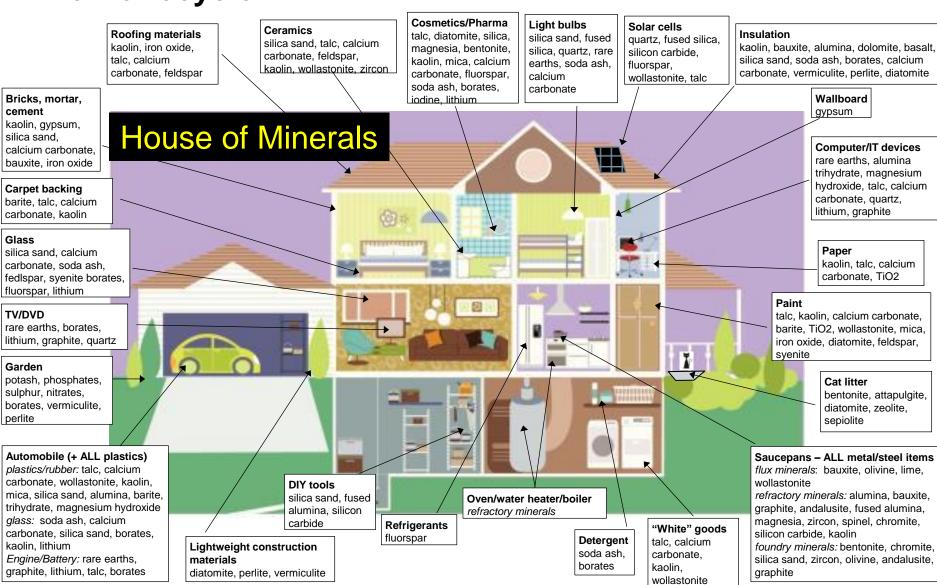

## Moving towards a circular economy – "Closing the loop"

### **Secondary Raw Materials**

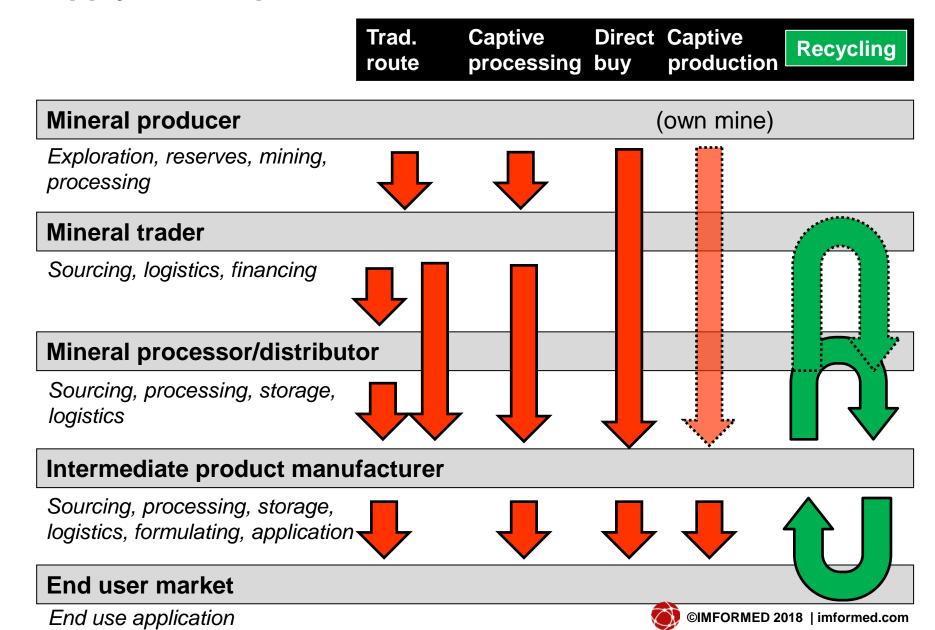

### A lot to recycle!

## **Supply chain options**

## Secondary Raw Materials (SRM) for industrial mineral markets

SRM source*	SRM recovered	Market
Aluminium salt slag	alumina	cement; ceramics; geopolymers; metallurgy; mineral wool; refractories;
Batteries	graphite; lithium; manganese dioxide	batteries; ceramics; chemicals; glass; refractories
Fly ash	aluminosilicate	ceramics; coatings; construction; foundry; plastics; proppants (oil & gas drilling)
Glass	REE; silica	abrasives; chemicals; coatings; concrete; glass; plastics; sealants
Gypsum wallboard	gypsum	wallboard
Refractories	alumina; andalusite; bauxite; chromite; dolomite; mag-carbon; graphite; magnesia; silicon carbide; zirconia	ceramics; metallurgy; refractories
Steel slag	alumina; calcia; magnesia; silica	abrasives; aggregate; cement; concrete; fertiliser; filtration; metallurgy
Waste water	phosphorus	fertiliser
WEEE**	antimony trioxide; bromine FR; fluorspar; graphite; REE	batteries; ceramics; chemicals; flame retardants

<sup>\*</sup> ie. waste from processing, or used/discarded mineral-bearing end products to be recycled

<sup>\*\*</sup> waste electrical and electronic equipment

## Mineral recycling drivers

- Environmentally driven legal requirements national/regional
- Conservation of primary mineral resources by use of recycled materials
- Alleviates mineral resource squeeze, their "criticality", dependence on certain countries
- Mineral price rises
- Recycling contributes to CO<sub>2</sub> reduction
- Conservation of energy
- Controls hazardous substances
- Reduces landfill cost and pressure
- Technological advances in processing
- Employment opportunities

### Outlook: Challenges

- Not cost-competitive with PRM; Increased competition with PRM
- Stigma of using a "waste" product:

Not "Primary" or "Secondary", and instead have them branded as "v-type" (virgin raw materials) or "r-type"

(raw materials based on used products being recycled).

- Quality control issues: making the grade
- Investment in process/sorting technology
- Compatability in original product formulations

### Outlook: Challenges

 Sourcing adequate supply of waste material: waste source becomes the new "mineral resource"

- Assurance of long term supply of consistent quality of SRM
- Management by the recycling company of balance between continuous and discontinuous flows of waste material against supply of recycled material flow to end users
- Permits/legislation in handling/treating waste material: clarity, consistency, across country borders

## **Outlook:** Opportunities

- Continued tight supply from China to drive more demand from recycled materials
- SRM on mineral purchaser's menu in future
- More and improved automation systems; development of mobile sorting systems, other processing technology
- More companies getting involved; evolution of supply chain of sources, processing, trading, distribution, logistics

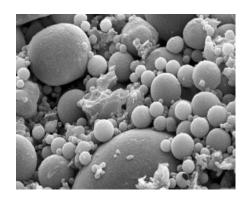

## **Outlook:** Opportunities

- Development of new product formulations to enhance/ease SRM use and ultimate recyclability
  - Added value product development for more diverse market applications
  - Increasing long term strategic alliances between waste sources, recyclers, and end users
  - Education of end users to positively engage in and recognise benefits of recycling;
     employment, better for environment

## **Programme Wednesday**

WEDNESDAY 14 MARCH 2018			
FIELD	TRIP: HORN & CO. GROUP	Horn&Co.	
08.45	Meet Radisson Blu Hotel lobby, Cologne	Group	
09.00	Depart by bus		
11.00	Arrive Weitefeld facility for introduction & tour: sorting, processing		
12.30	Depart Weitefeld		
13.30	Arrive Hunsborn facility for lunch & tour: analytical laboratory		
14.30 Depart Hunsborn			
15.00	15.00 Arrive Siegen facility for tour: LIBS sorting		
16.00	Depart Siegen		
18.00	Arrive Radisson Blu Hotel, Cologne		
	Please wear suitable clothing and footwear to industrial site.	hat befits a visit to a working	

### **Programme Thursday AM**

#### **INTRODUCTION & OVERVIEWS**

07.30	Registration	
09.00	Introduction Ismene Clarke, Director & Mike O'Driscoll, Director, IMFORMED, UK	
09.30	The role of industrial minerals in the Circular Economy Roger Doome, Secretary General, IMA-Europe, Belgium	
10.00	A role for secondary materials in reducing supply vulnerability: EIT RawMaterials pioneering innovation in Europe Wesley Crock, Education Officer, EIT RawMaterials, Belgium	

#### **10.30 COFFEE**

#### STEEL WASTE RECYCLING

- 11.30 Efficient use of steel waste resources using methodology and technological innovation

  Jitka Halamová, Process Engineer, Technical Excellence Dept., ArcelorMittal Ostrava, Czech Republic
- 12.00 Thermal treatment of steelworks dust and waste chlorides for recycled use in steel and cement applications

  Gerhard Auer, R&D Manager, Ferro Duo GmbH, Germany

#### 12.30 LUNCH

## **Programme Thursday PM**

#### REFRACTORY RECYCLING

14.00 Building a refractory recycling business through the use of PDCA/SDCA methodology

Mario López, Recycling Specialist, RHI Magnesita, Brazil

14.30 RHI Magnesita refractory recycling: the past and the future Michael Postmann, Recycling Manager, RHI Magnesita, Austria

#### **15.00 COFFEE**

#### REFRACTORY & FOUNDRY SAND RECYCLING

- 16.00 Refractory waste valorisation under Sidenor steel plant strategy David Maza, R&D – Knowledge Group Leader, Sidenor, Spain
- 16.30 Chromite sand reclamation from foundry waste Chris Wilding, Sales Director, Omega Foundry Machinery Ltd, UK

#### 17.00 CLOSE OF DAY 1

RECEPTION SPONSORED BY HORN & CO. GROUP GMBH

## **Programme Friday AM**

#### Li-ION BATTERIES | FERTILISER MINERALS

- 09.00 What the EV revolution will mean for the recycling/raw material industry Hans Eric Melin, Managing Director, Creation Inn, UK
- 09.30 ICL and recycling, a review on actual performance and potential Kees Langveld, Technical Expert, ICL Fertilizers, the Netherlands

#### **10.00 COFFEE**

#### SALT | FLY ASH | LIBS

- 11.00 Introducing ALUSAL®: aluminium flux salt recovery and recycling process with hydroextraction
  - Vladimir M. Sedivy, President, Salt Partners Ltd, Switzerland
- 11.30 Modified fly ash: a green & advanced solution for cement & concrete application technology, processing solutions, mobile container plants for R&D and production
  - Dietmar Alber, Business Development Director, Hosokawa Alpine AG, Germany, & Anna Huttunen, Process Director, Fatec Ltd, Finland
- 12.00 Maximising value in recycling: mining and metal applications by fast inline elemental analysis (LIBS)
  - Dr Christian Bohling, General Manager, SECOPTA analytics GmbH, Germany

#### 12.30 LUNCH & CLOSE OF CONFERENCE

#### **Attending Companies**

MINERAL RECYCLING FORUM 2018

Alcoa

**ALFRAN** 

ArcelorMittal Ostrava

Arcillas Refractarias S.A

Calderys

Carboref GmbH

Vesuvius

"Good programme. Thought provoking and stimulating presentations."

Daniel Lucente, Sourcing Manager, HarbisonWalker International, USA

"The network the event creates is great"

Alex Aizupura, Raw Material Business Development Manager, Midegasa, Spain

"Good mixture of recycling topics"

Wolfgang Brast, Managing Director, PK Rohstoffe GmbH, Germany

"It's an interesting Forum for recycling and the networking very important."

David Maza, R&D Knowledge Group Leader, Sidenor, Spain

"Very interesting and good for networking; excellent programme and venue"

Jitka Halamová, Process Engineer, ArcelorMittal Ostrava, Czech Republic

"Good programme and venue; very interesting visit to the Horn plant. Well organised."

Marc Faverjon, Technical Department, DEREF, Italy

"Very informative, well presented and excellent venue. Keep it going!"

Richard Thompson, Francis Flower, UK

"Good and interesting programme, insightful presentations, good diverse subjects; good networking opportunity"

Pim Steenhuis, Commercial Manager, Port of Amsterdam, Netherlands

#### **Upcoming Conferences in 2018**

## CHINA REFRACTORY & ABRASIVE MINERALS FORUM 2018

Regal International East Asia Hotel, Shanghai, 10-12 September 2018

## MAGFORUM 2018

Magnesium Minerals & Markets Conference Grand Elysée Hotel, Hamburg — 17-19 June 2018

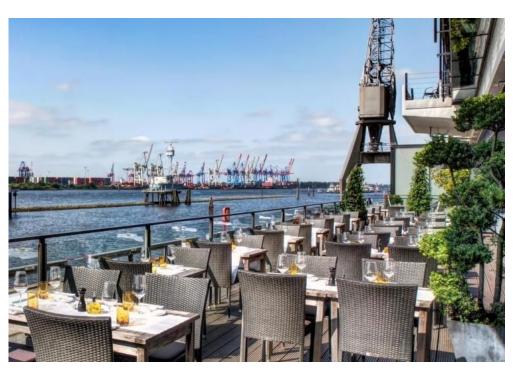

## CHINA REFRACTORY & ABRASIVE MINERALS FORUM 2018

Regal International East Asia Hotel, Shanghai, 10-12 September 2018

Alumina | Bauxite | Fused Alumina Dead Burned Magnesia | Flint Clay Fused Magnesia | Garnet | Graphite Silicon Carbide | Spinel

Bringing together an expert panel to discuss the latest trends and developments in Chinese refractory and abrasive mineral supply and demand.

CALL FOR PAPERS | SPONSOR/EXHIBIT OPPORTUNITIES EARLY BIRD RATE ENDS 3 AUGUST 2018

## PRIMARY WORLD SOURCES & PRODUCTION CAPACITY OF KEY REFRACTORY MINERALS
