IMFORMED H1 2016 mineral conferences

Recycling | Logistics | Magnesia | Oilfield

FOR IMMEDIATE RELEASE (London, 27 October 2015): IMFORMED, the source of professional networking and research expertise for the industrial minerals business, is delighted to announce confirmed dates, venues, and speakers for its conferences during the first half of 2016.

Mineral Recycling Forum 2016, 14-15 March 2016, Rotterdam

Bringing together an expert panel to discuss the latest trends and developments in Secondary Raw Materials sourcing, supply, processing, quality control, logistics, and crucially, their market applications.

Mineral Logistics Forum 2016, 11-13 April 2016, Rotterdam

Economic and efficient supply chains from mine to market are absolutely key to the industrial minerals business. Key challenges and solutions in industrial mineral logistics are examined and discussed.

MagForum 2016, 9-11 May 2016, Vienna

A new biennial conference for all those active in the development, supply, processing, logistics, and market application of magnesium minerals, covering the full spectrum of the magnesia business.

Oilfield Minerals & Markets Forum 2016, 5-7 June 2016, Houston

One of the great consuming markets of industrial minerals in drilling muds and proppants relies on a range of key minerals and limited sources: their supply and demand outlook is under the spotlight again.

Significant savings on registration if you book before 31 December 2015
