

# Salt Partners

Please complete and return to Vladimir M. Sedivy, President, Salt Partners Ltd., [vladimir.m.sedivy@salt-partners.com](mailto:vladimir.m.sedivy@salt-partners.com).

## Salt Master Class, Feedback Form

On a scale 1-5, indicate the topics you consider most important with 5 and the least important with 1.

Topic No.	Topic	Your Topic Rating	Your Remarks / Questions
1	Salt origin in nature, rock cycle, water circle, ocean belt conveyor		
2	Salt and brine chemical and physical properties (mineralogy, sea water, analytical methods)		
3	Low and high temperature NaCl properties (freezing, de-icing, dihydrate, eutectics)		
4	Natural salt sources (rock salts, sea water, lake waters, saline aquifers, diapiric formations, geology, hydrogeology, seismic prospecting, core drilling)		
5	Salt production methods (dry and solution mining, solar salt, thermal evaporation, membranes)		
6	Solar saltworks (evaporation, crystallisation, sea water chemistry, saltworks design and operation, biological saltworks management, harvesting methods and equipment)		
7	Salt processing methods (salt washing, purification with hydroextraction, magnetic, optical)		
8	Brine purification (for brine evaporation and crystallisation, for brine electrolysis)		
9	Salt refining (recrystallisation, hydromilling, centrifuging, drying, screening, additive blending)		
10	Salt storage, handling and transport (bulk, mechanical, hydraulic, pneumatic, packaging)		
11	Salt products, qualities, production methods (de-icing, industrial, table, pharma, tablets, licks)		
12	Materials of construction (low and high temperatures, metals and plastics, corrosion protection)		
13	Salt uses (chloralkali, softening, curing and tanning, preservation, textiles)		
14	Salt economics (capital and operating cost, financing, marketing, financial modelling)		
15	Salt project implementation (design, procurement, construction, commissioning, management)		
16	Salt history		
17	Salt in nutrition and medicine (metabolism, hypertension, dialysis)		
18	Salt in animal and plant nutrition		
19	Salt specialities (herbs, lamps, bricks, lo-salt)		
20	Controversial environmental issues
